Dear Mr. Price:

Perhaps the accompanying pamphlet may be of service to your assistants. You will note that a number of changes have been made in the actual carrying out as well as some alterations since.

Very truly yours,

Secretary

My dear Mr. Noe:

Thank you very much for the book with the pictures of the drawings for the original building of the American Numismatic Society. They will be of great service in making my working drawings for the new building.

As you suggested, I have already noted a number of changes, even from the drawings of the Building Department, of which I made a hurried copy.

Yours very sincerely,

H. Brooks Price

Dear Sir:-

The bearer is Mr. R.S.Jordan, who is assisting me with the drawings of the new Numismatic Building.

Will you please permit him to have a general look at the interior of the present building.

Very truly yours,

H. Brooks Price

My dear Mr. Newell:-

I am enclosing to you a scale drawing for the line of cases on each side of the big Exhibition room. In making this detail I have used the data given to me at the time the scale drawing for this room was made.

Mr. Eidlitz has sent this drawing out for estimates. Will you be good enough to let me have your criticism or approval at an early date so that I may make the full size details and have the work started.

Very truly yours,

H. Brooks Price

Dear Mr. Jewett,

Although I saw you only this morning, I must thank you again for your very kind invitation to be with you for your Annual Meeting next Saturday and again beg that you will not think me ungracious in not accepting.

Please believe that it has been a real pleasure to me to work with you on the new building and

if you and the Building Committee are pleased with the result, I am doubly repaid for my own very sincere interest.

Of course I can accept only a small part of the credit you are good enough to give me; the builder, your fellow townsman, Mr. Eddy, and his staff merit the main share, to conclude as any thing worth while without the intelligent co-operation of the builder, and this I had from start to finish.

Thanking you again, believe me very sincerely yours

L. Morris Force
